Material: White 2 Mil Polyester Peel & Stick Label with a Clear Polyester Laminated Layer
Adhesive: Aggressive Adhesive, Acrylic

Custom Options: Any barcode/digits/text can be printed on custom-ordered labels.
Custom orders take about two weeks to delivery.
Rush is available with extra fee.

Pricing: In Stock Labels are available without laminate.
Custom Labels $ 0.25-1.00/label, depending on size and order quantity, plus a $37.50 set-up fee, per run.

Simply peel & stick! Labels stick to most surfaces.

Shoe Recommendations: For easy scanning we recommend placement in the arch or side panel area of the shoe. Clean the area with alcohol prior to label placement for best adhesion. This should also be done on new merchandise to remove any residue that may have been deposited during manufacture. Allow alcohol to dry completely prior to label placement. After placement, labels should sit 24 hours prior to use to allow proper curing of the adhesive. Higher initial bonds can be achieved through increased rubdown pressure. Depending on how you maintain your inventory, you may barcode one shoe or both with either a unique or identical serial number. Check with your software provider for recommendations.
